

# Diploma of Interior Design

# Units of Study

## IDO01 Foundations of Design and Colour

Be introduced to the foundations of design, concept development, elements and principles of design. Explore the technicalities of paint and learn how to develop industry standard professional specifications.

## IDO02 Interior Planning and Design

Be introduced to the fundamentals of residential interior design, planning and lighting. Visualise space through model making and perspective drawing techniques.

## IDO03 Interior Schemes and 3D Visualisation

Explore all aspects of interior decoration including furniture, furnishings, upholstery, window treatments and flooring. Learn how to construct an interior scheme and present professional sample boards and specifications.

## IDO04 Residential Decoration

Take on a real client brief and work through the design stages to the final presentation. Learn essential business skills, prepare a professional resume and portfolio ready to launch your dream career.

## IDO05 AutoCAD and Interior Construction

Discover the fundamentals of AutoCAD and interior building construction and prepare a comprehensive portfolio of drawings for a range of residential spaces.

## IDO06 Residential Planning

You'll learn how to prepare a client brief, undertake a residential site evaluation and develop a full interior design proposal.

## IDO07 Advanced Colour and Finishes

Learn what drives colour trends and future forecasting as you explore a diverse range of schemes for residential homes, exteriors and public spaces.

## IDO08 SketchUp for Designers

Create detailed 3D interior imagery using SketchUp. You'll import furniture, finishes and lighting from the 3D Warehouse, the world's largest online library.

## IDO09 Small Commercial Design

Extend your conceptualisation and design skills to complete a range of small commercial design projects. You will expand your technical skills to include Adobe Photoshop enabling you to professionally present your design proposals.

## IDO10 Workplace Design

Extend your design and documentation skills through the exploration of a range of large commercial design projects including office, training spaces and retail.

## IDO11 Hospitality Design

Develop and apply your conceptual design skills to a range of hospitality spaces including bars and restaurants. Professionally present your projects and portfolio of work using a range of 2D and 3D media.
