

## Certificate IV in Interior Decoration

# Units of Study

## **IDO01 Foundations of Design and Colour**

Develop an understanding of the Interior Design and Decoration Industry and what influences design styles. Be introduced to the foundations of design including concept development, elements and principles of design and composition.

Explore the inspiring world of colour and learn how to create dynamic colour schemes. Explore the technicalities of paint and learn how to develop industry standard professional specifications.

## **IDO02 Interior Planning and Design**

Be introduced to the fundamentals of residential interior design, planning and lighting. Explore all aspects of residential design including designing bathrooms, kitchens, living, bedrooms and outdoor spaces. Visualise space in two and three dimensions through model making and perspective drawing techniques.

## **IDO03 Interior Schemes and 3D Visualisation**

Explore all aspects of interior decoration including furniture, furnishings, upholstery, window treatments and flooring. Learn how to construct an interior scheme and present professional sample boards and specifications.

## **IDO04 Residential Decoration**

Prepare for the real world by working on a simulated residential project. Take a client brief and work through the design stages to the final presentation. Learn essential business skills, prepare a professional resume and portfolio ready to launch your dream career.
